CONTENTS OF *EXPERIMENTAL & APPLIED ACAROLOGY*, VOLUME 8

VOL. 8 Nos. 1,2 JANUARY 1990

Coprophilous mite communities as affected by concentration of plastic and glass particles
S. Stamatiadis (Kifissia, Greece) and D.L. Dindal (Syracuse, NY, U.S.A.) 1

Parasitus bituberosus (Acari: Parasitidae), a possible agent for biological control of *Heteropeza pygmeae* (Diptera: Cecidomyiidae) in mushroom compost
A.H.K. Al-Amidi and M.J. Downes (Maynooth, Ireland) 13

Environmental actions of agrochemicals. 1. Side-effects of the herbicide 3-amino-1,2,4-triazole on a laboratory acarine/host-plant interaction (*Tetranychus urticae/Phaseolus vulgaris*) as revealed by electron microscopy
U. Mothes-Wagner, H.K. Reitze and K.A. Seitz (Marburg, Federal Republic of Germany) 27

Attempted transmission of *Ehrlichia risticii*, causative agent of Potomac horse fever, by the ticks *Dermacentor variabilis, Rhipicephalus sanguineus, Ixodes scapularis* and *Amblyomma americanum*
N.E. Hahn (Blacksburg, VA, U.S.A.), M. Fletcher (Raleigh, NC, U.S.A.), R.M. Rice (Washington, D.C. U.S.A.), K.M. Kocan (Stillwater, OK, U.S.A.), J.W. Hansen (Blacksburg, VA, U.S.A.), J.A. Hair, R.W. Barker (Stillwater, OK, U.S.A.) and B.D. Perry (Blacksburg, VA, U.S.A.) 41

Immunity of the ox the brown ear tick *Rhipicephalus appendiculatus*
B.H. Fivaz and A. Norval (Causeway, Zimbabwe) 51

An Australian record of the American dog tick *Dermacentor variabilis*, and the risk of its establishment outside North America
R.B. Halliday (Canberra, A.C.T., Australia) and R.W. Sutherst (Indooroopilly, Qld., Australia) 65

Species diversity and seasonal dynamics of Acari on abandoned apple trees in southern Ontario, Canada
H. Amano (Chiba, Japan) and D.A. Chant (Toronto, Ont., Canada) 71

Differentiation of mite species by using cellulose acetate and equilibrium polyacrylamide gel electrophoresis of isoenzymes
B.J. Hart (Oxford, Great Britain), A. Fain (Bruxelles, Belgium) and D.T. Hart (London, Great Britain) 97

Scanning electrion microscopic observation on the pretarsal suckers of the honey-bee ectoparasite, *Varroa jacobsoni* (Gamasida: Dermanyssina)
T.P. Liu (Beaverlodge, Alta., Canada) and Y.-S. C. Peng (Davis, CA, U.S.A.) 105

Fine structure of external 'genital' papillae in the freshwater mite *Hydrovolzia placophora* (Hydrovolziidae, Actinedida, Actinotrichida, Acari)
G. Alberti (Heidelberg, Federal Republic of Germany) and C. Bader (Basel, Switzerland) 115

Fine structure of the fat body and nephrocytes in the life-stages of *Dermacentor variabilis*
L.B. Coons, W.J. L'Amoreaux, R. Rosell-Davis and L. Starr-Spires (Memphis, TN, U.S.A.) 125

Guide for Authors 143

VOL. 8 No. 3 MARCH 1990

Further experimental proof of thelytokous parthenogenesis in oribatid mites (Acari: Oribatida: Desmonomata)
S.C. Palmer and R.A. Norton (Syracuse, NY, U.S.A.) 149
Do phytoseiid mites select the best prey species in terms of reproductive success?
M. Dicke (Wageningen, The Netherlands), M.W. Sabelis (Amsterdam, The Netherlands), M. de Jong and M.P.T. Alers (Wageningen, The Netherlands) 161
An improved method for determining the susceptibility of *Rhizoglyphus robini* and *R. setosus* (Acarina: Acaridae) to pesticides
J.-S. Chen (Taichung, Taiwan) 175
Population increase and damage by three species of mites on wheat at 20°C and two humidities
C.L. Parkinson (Slough, Great Britain) 179
Changes in body weight of two species of predatory mites (Acarina: Phytoseiidae) as a consequence of feeding in an interactive system
D.S. Yao and D.A. Chant (Toronto, Ont., Canada) 195

Book Review
The Ixodid Ticks of Uganda 221

VOL. 8 No. 4 APRIL 1990

Effect of fast electrons on the reproductive biology of the grain mite, *Acarus siro* (Acari: Acaridae)
E. Szlendak, J. Boczek (Warsaw, Poland) and W. Bruce (Savannah, GA, U.S.A.) 223
Development and reproduction of three *Euseius* (Acari: Phytoseiidae) species in the presence and absence of supplementary foods
Z. Zhimo (Chongqing, China) and J.A. McMurtry (Riverside, CA, U.S.A.) 233
Toxicity of organophosphorus insecticides to diazinon-reversely-selected, pesticide-pressure-relaxed and field-resistant strains of bulb mite, *Rhizoglyphus robini* (Acari: Acaridae)
J.-S. Chen and K.-C. Lo (Taichung, Taiwan) 243
Ambulatory dispersal behavior of *Neoseiulus fallacis* (Acarina: Phytoseiidae) in relation to prey density and temperature
J.S. Berry and T.O. Holtzer (Lincoln, NE, U.S.A.) 253
Genotypic variation in susceptibility of honey bees (*Apis mellifera*) to infestation by tracheal mites (*Acarapis woodi*)
R.E. Page, Jr. (Columbus, OH, U.S.A.) and N.E. Gary (Davis, CA, U.S.A.) 275
Rhipicephalus appendiculatus feeding on rabbits and cattle: Salivary-glands responses to varying host resistance
A.R. Walker and J.D. Fletcher (Roslin, Great Britain) 285
Ecology and phenology of cattle ticks in Zambia: development and survival of free-living stages
R.G. Pegram and D.S. Banda (Lusaka, Zambia) 291
